Subject: Agenda Item VI - G - MeasureUp Software License Agreement

This agenda item is a request for an agreement between Broward Community College (BCC) and MeasureUp Company. It will establish a partnership to provide engineering/computer science students at North Campus the opportunity to improve their skills prior to sitting for specific examinations, such as A+, Network+, Cisco, Security+. Additionally, for a fee, this on-line software will be made available to community members who are planning to sit for certification exams on BCC's North Campus.

This partnership includes elements of BCC's mission as it supports student achievement and success and the accessibility to a diverse community of learners. The partnership is aligned with the educational master plan:

- Goal 4: Position BCC to be the vehicle of choice for training Broward County's workforce.
- Goal 5: Increase entrepreneurial actions across the College by seeking new revenue sources.
- Goal 7: Re-examine the format and delivery option for all courses.
- Goal 8: Make strategic choices about instructional programming and resources.
