

BROWARD COMMUNITY COLLEGE

We keep you thinking.

Office of the president

To: Members of the Board of Trustees

From: J. David Armstrong Jr., President

Date: February 27, 2008

Place: Regular Meeting of the Board of Trustees
Broward Community College
Judson A. Samuels South Campus
Building 81- Multi-Purpose Room
7200 Pines Boulevard
Pembroke Pines, Florida

Subject: Agenda Item VII - College Presentation - Marine Engineering Program

Brief Description: In this presentation, South Campus will present the information relative to the new Marine Engineering Management program as well as the proposed Air Traffic Control Program for the new Miramar Town Center.

The update of the Marine Engineering Management program will include a presentation of the program's website, the marketing video which highlights the program's goals and industry opportunities for high wage, high skill careers, and the importance of the ABYC certification that students will receive upon completion of the program.

In addition, we will present our vision and strategy for the development and implementation of a new Air Traffic Control program scheduled to be located at the Miramar Town Center location.
