

President's Recommendation  
Item 3: *Faculty Evaluation*

Significant progress was made in the discussions between BCC administration and UFF Broward relating to changes in Article 7.50. The attached new proposal references the placement of procedures, forms, and timelines for Faculty Evaluation in the BCC Faculty Handbook. This placement was agreed upon by both BCC administration and UFF. In addition, the attached proposal incorporates language proposed by UFF that identifies one of the purposes of faculty evaluation as follows "to review the effectiveness of instruction and service to students and to use the results to improve instruction and service to students." The proposal also retains other existing language in Article 7.50.
