To: Members of the Board of Trustees

From: J. David Armstrong Jr., President

Date: March 31, 2009

Subject: Agenda Item VII-G-Agreement/ICMIS - Bangalore, India

Brief Description:

The attached agreement will enable students of Broward College, and many colleges and universities from around the country, to study abroad in Bangalore, India for summer and semester length programs approved by the College Consortium for International Study (CCIS). Students are offered an intense cultural experience and may enroll in a range of courses including history, humanities, literature, religions of India and languages of India. Students live in supervised residences.

BC has served as the U. S. sponsoring institution (along with Truman State University) for the CCIS study abroad program in India since 2007. This renewal will extend our agreement with ICMIS for another five years until 2014. The current agreement, which established a two year Broward degree granting program at ICMIS, has not been economically feasible due to the low enrollment of Broward students. It expires on December 31, 2008, and will not be renewed.

Benefit to BC:

Students who enroll from outside of the college pay an administrative fee towards program expenses and the expenses of the Greene International Education Institute. This has enabled BC to support other international education initiatives including scholarships, faculty development projects and visits to monitor program quality.

From: Dr. Judith Scherer, Vice President for Academic Affairs
Subj: Agreement with International Center for Management and India Studies
(ICMIS), formerly the Center for American Education, Bangalore, India

Issue: Enable students of Broward College and many colleges and universities from around the country to study abroad in Bangalore, India for summer and semester length programs. Students are offered an intense language and cultural experience and may enroll in a range of courses including Indian religions and languages, humanities and literature. Students live with Indian families or in supervised residences.

Background/Analysis: ICMIS has partnered with BC since 1996 to offer the Broward program in India. Recent changes in administration, location and focus have caused a reassessment of the viability of this arrangement and led to a decision to change the relationship to a study abroad partnership through June 2014.

Fiscal Impact: This program does not have any fiscal impact on BC operations. However, each student who enrolls from outside of the college pays an administrative fee towards program expenses and the expenses of the Greene International Education Institute. This enables BC to support other international education initiatives including student scholarships and faculty development projects.
