## Intensive English Program (IEP)

The IEP consists of eight 12-week modules for adult and young adult students of any level of English proficiency, from beginner to advanced. Students are given a placement test as part of the enrollment process to determine their levels of proficiency and length of program. Classes start every Monday and minimum age to participate is 15. The program utilizes a communicative approach, called Enter-Training<sup>SM</sup> (entertainment & training). Following the principles of neuro-linguistics (multi-sensory practice through visual, auditory and physical activities), IEP combines the four English skills -conversation, listening comprehension, reading and writing- in a full-immersion environment and integrated method. Our state-of-the-art resource centers enhance the learning process. Field trips and other extracurricular activities promote rapid language acquisition. Each level is accompanied by a supplemental course, including Conversation and Accent Reduction, Business English and/or TOEFL Test Preparation. Upon completion, students are granted a certificate of English proficiency.
