TAA Priority Processing for ACCS Programs

The Accelerated Competency-based Computer Specialist (ACCS) programs at Broward College identifies workers eligible for assistance under the TAA for Workers program as a priority population. In collaboration with local Career Source centers, ACCS is able to provide priority processing and enrollment services to address the needs of this population. This priority status includes precedence for processing and response time, and expedited registration.

Trade Adjustment Act (TAA) recipients wishing to utilize funding towards our Accelerated Computer Systems Specialist program at Broward College will need to complete the following steps in order for a TAACCCT contract to be drafted:

**Step 1**
Explore ACCS programs by working with a Career Source/TAA Representative and the ACCS Admissions Counselor.

- Please contact the ACCS office at 954-201-4929, or osarson@broward.edu to learn more about our programs and to talk with a representative about defining an educational pathway.
- You may also visit our website: [www.broward.edu/computerspecialist](http://www.broward.edu/computerspecialist) to access additional services

**Step 2**
Work with ACCS Admissions Counselor for assistance in applying to Broward College, completing the required placement testing(if applicable) reviewing transcripts (if applicable), and completing XCEL IT Orientation for competency-based education.

Broward College Admissions, please complete the following:

- [Apply to Broward College](#)
- [Financial Aid](#)
- [Transcripts](#)
- [Testing](#)

In addition to college admissions, complete the following:

- [Supplemental Application Form](#)
- [Meet with our Recruiting Advisor/Academic Coach](#)
- [Competency-based Orientation](#)
- [Register for class](#)
