

## BACHELOR OF APPLIED SCIENCE PROGRAM Supply Chain Management–Program Code T400

### ***Mission Statement***

The mission of the Bachelor of Applied Science (BAS) program in Supply Chain Management (SCM) is to prepare a professional and competent supply chain manager. Broward College does this through a learner-centered degree program that provides specific program learning outcomes in logistics and supply chain management. Students, who successfully complete the Supply Chain Management degree program, will gain technical hands-on skills through case studies and a practicum/internship, which will include analysis and problem solving through simulations and similar activities. This program will focus on current and emerging issues in global logistics and supply chain management, such as the planning and management of all activities involved in sourcing and procurement, conversion, and all logistics management activities. Importantly, including coordination and collaboration with channel partners, which can be suppliers, intermediaries, third party service providers, and customers, and will focus on developing comprehensive solutions to real-world problems associated with current management and organizational leadership challenges. Students will acquire knowledge related to the major concepts, principles, and techniques associated with leading cultural diversity in the global marketplace. General program outcomes for the Supply Chain Management degree are comprised of specific learning objectives embedded into each of the courses.

### ***Program Philosophy***

The Supply Chain Management program faculty believes that supply chains encompass the companies and the business activities needed to design, make, deliver, and use a product or service. Businesses depend on their supply chains to provide them with what they need to survive and thrive. Every business fits into one or more supply chains and has a role to play in each of them. The pace of change and the uncertainty about how markets will evolve has made it increasingly important for companies to be aware of the supply chains they participate in and to understand the roles that they play. Those companies that learn how to build and participate in strong supply chains will have a substantial competitive advantage in their markets.

### ***Related Programs***

AS in Business Administration Program 2119  
AS in Global Trade and Logistics Program 2205

### ***Financial Aid***

Students may be eligible for financial aid at the junior level when the following occurs:

1. earned associate degree;
2. earned 60 credits toward a Bachelor degree program of study; and
3. enrolled in upper division coursework applicable to their Bachelor degree program of study.

Admission Requirements***

The Bachelor of Applied Science is an open access program designed for the adult learner who has earned an Associate of Science or an Associate of Arts degree and wishes to advance professionally. General admission to Broward College is required, and students will submit a [supplemental application](#) to the program. Applicants for the BAS program should have completed a minimum of 15 semester hours of general education requirements as part of their AS degree. The remaining general education semester hours (totaling 36) will be completed during the Bachelor of Applied Science degree program. Students will meet all of the State of Florida Bachelor of Applied Science general education requirements to be awarded the Bachelor of Applied Science (BAS) degree in Supply Chain Management. Students with an Associate in Arts degree (AA) may be admitted to the program upon recommendation of the Admissions Committee, Academic Dean for Supply Chain Management, and the Dean for Student Affairs.

Applicants are required to have a cumulative grade point average (GPA) of 2.0 on a 4.0 scale in all post-secondary coursework. Applicants must be in good academic standing at the last institution they attended. As part of the admission process students are required to complete an educational plan; please access the website for more specific procedural information regarding the assistance that will be provided through a personal advisor or counselor in developing the student's educational success plan

<http://www.broward.edu/academics/programs/Pages/bachelors.aspx>.

General admission to Broward College does not constitute admission to the BAS Program; a [supplemental application](#) is also required. The general admission, supplemental, and reentry applications are available on the Broward College website; please use the following links to access these applications: <http://www.broward.edu> <http://www.broward.edu/academics/programs/Pages/bachelors.aspx>

- Students currently attending Broward College who wish to apply for the BAS program are required to complete the [supplemental program](#) application.
- Graduates or returning Broward College students who wish to apply for the BAS program are required to complete the re-entry application and the [supplemental program](#) application.
- New students to Broward College must complete the Broward College admissions application, and complete the [supplemental application](#) for the BAS program.
- International students must first be admitted into Broward College. They are also required to complete the BAS program [supplemental application](#). Please refer to the international admission requirements listed in the online Broward College catalog at <http://www.broward.edu/catalog/Pages/default.aspx>
- Transfer students must submit a general admission application and complete the [supplemental application](#) for the BAS program

### **Graduation Requirements**

The Bachelor of Applied Science degree will be awarded to students who meet the following requirements:

- A minimum of 120 semester credit hours in the prescribed coursework is required for the Bachelor of Applied Science degree. Coursework is comprised of both lower division (AA or AS) and upper division (BAS) as specified by the program sheet.
- Successful completion of the Internship/Practicum and Directed Independent Study courses.
- Students must maintain an overall GPA of 2.0 to meet their graduation requirements.
- Complete eight credits in one foreign language or American Sign Language students who have completed two years of high school foreign language in one language

are considered to have met the requirement. Students who have earned an Associate in Arts degree from a Florida Community College or State University System (SUS) institution before the Fall term of 1989, or who have maintained continuous enrollment in a Florida community college or SUS institution before the Fall term, 1989, are exempt from the requirement.

- Be recommended for graduation by the faculty of the student's major field department.

## **BACHELOR OF APPLIED SCIENCE PROGRAMS** **Supply Chain Management –Program Code T400**

### **Program Description:**

The Bachelor of Applied Science Degree in Supply Chain Management uses a 2+2 model designed to provide individuals who have obtained an Associate of Science (AS) or Associate of Arts (AA) degree from a regionally accredited college or university the opportunity to further their education. The curriculum offers a learner-centered practical approach to understanding global logistics and supply chain management.

<b>BAS SUPPLY CHAIN MANAGEMENT DEGREE COMPONENTS</b>	
<b>Earned Associate of Science (AS) Degree</b>
