

## Placement Assignments

- All placement assignments are done through Broward College.
- Students are **not** guaranteed a placement in the same city in which they reside. They will, however, be placed within the geographical region of the address they provide when registering. **No** changes will be granted to placements for reason of distance.
- Once the student is placed, it is their responsibility to contact the school and schedule their first visit within **24 hours**.
- Students can complete a minimum of two hours but cannot exceed four hours per visit per placement.
- Students are required to meet with their cooperating teacher(s) within **one week** of being placed to complete the Field Experience Contract and create a tentative field experience schedule. Students must submit the field experience contract to Coordinator of Clinical Education and Placement following **the initial meeting** with the cooperating teacher(s).
- Students needing multiple field experience assignments may be placed at the same school to complete all hours, however this is not guaranteed.
- If students have multiple placement assignments, students are still required to complete the field experience contracts and submit them to the Coordinator of Clinical Education and Placement within one week of being placed, **even if the field experience hours will be completed later in the term**.
- Students enrolled in structured and practicum placements who do not submit the Field Experience Contract(s) within one week of being placed will not be observed and risk failure in the course(s).
