BCC Internship Program (Cooperative Education)

An internship is an academic program that combines on-campus study with directly-related work experience.

The College defines an internship as:

- Any short-term supervised work experience specifically related to a student's declared major, for which the student earns academic credit.
- The work can be full- or part-time, on- or off-campus, paid or unpaid. In order to comply with the Fair Labor Standards Act of 1938, it is required that all employers that are for-profit pay their interns at least minimum wage, unless the intern is receiving academic credit (unpaid internships offered by for-profit organizations *must result in academic credit* for the student). Paid internships are highly encouraged.
- The internship should provide the student with a meaningful experience directly related to the student's program of study. The Faculty Internship Instructor ultimately approves the suitability of the internship for course credit.
