

CONTINUING EDUCATION / WORKFORCE DEVELOPMENT, HEALTH SCIENCES

WINTER TERM 20122
(January - May, 2012)

Health Care Career Core Courses
Course Waiver and/or Substitution Guidelines

Effective Immediately:

The following course waiver and/or substitution guidelines will apply to all students being admitted into a health science certificate or degree program, effective Term I, 2010 (20111). Health Care Career Core course waivers and/or substitutions will be processed if:

1. The 75 hour Health Care Career course HCP0001 (OLD COURSE NUMBER HCP0130) or equivalent course was successfully completed at a SACS accredited college or university, or Florida Department of Education health occupations program. Successful completion must be documented with a transcript showing a grade of "Pass" or "C" or better.

OR

2. The student has a current Florida or national license in another direct patient care health care profession. Students must bring an original transcript, state or national license/certificate and letter verifying recent in-field employment.

NOTE: Students not meeting the above guidelines will be required to complete the Health Care Career Core course HCP0001 (OLD COURSE NUMBER HCP0130) at BC.

3. Required core courses equivalent to HIV/AIDS HSC0591 (OLD COURSE NUMBER, CAE0382); Domestic Violence HSC0691 (OLD COURSE NUMBER, CAE0474); Basic Life Support for Health Care Providers HSC0405 (OLD COURSE NUMBER, CAE0299); and TB/OSHA/Hepatitis HSC0522 (OLD COURSE NUMBER, CAE0476), can also be considered for a course waiver and/or substitution. These courses will only be considered if:
 - a. The course was taken at an area hospital, or State of Florida/federal government health care facility as a condition of employment,
 - b. The course was approved for continuing education by a Florida health care licensing board and the hospital/government agency provider number is on the Certificate of Attendance,
 - c. The course was for the same number of hours required by BC, was completed within 2 years and will still be current at the time of admission into a health science program. Renewal courses will be accepted if required for re-licensure, and
 - d. Verification of hospital/government agency employment is provided at the time the course waiver and/or substitution is requested.

Effective August 1998, the Health Science core courses (95 contact hours total) are required for admission into most health science programs. These courses cover introductory concepts common to most healthcare professions, as well as information/skills that prepare the student to begin clinical rotations. The following is the schedule of courses that meet these admission requirements.

HEALTH CAREER CORE HCP0001 (OLD COURSE NUMBER, HCP0130) - 75.0 Contact Hours

The Health Career core is a 75 clock hour course, which presents basic knowledge & skills for students majoring in certain health science degree and certificate programs. The course introduces students to the health care delivery systems, health occupations and teaches basic medical and employability skills.

This course is an independent study format, with mandatory attendance for all seminars, tests, labs and skill check-off sessions. The specific class schedule will be given out during the first class meeting. **All students must have and activate a BC E-Mail account before the first class meeting.** *******NOTE: Attendance is mandatory for every class/lab meeting*******

NOTE: Students may be eligible for a waiver if they have a certification or degree in another direct patient care healthcare field, are a Health Occupation (HOSA graduate), or took a similar course at another institution. For more information please email the health sciences' admission department at www.broward.edu.healthscience
