

2009-2010 COLLEGE COMMITTEE

Health, Safety and Security

Purpose: To improve the health, safety and security conditions of the college environment. Make recommendations and promote programs to increase college awareness of practices, procedures, and regulations which improve the quality of the environment now and for future generations. Review inspection records, statistical data, and reports as well as college procedures relative to health, safety and security and the work environment of students, faculty, and staff, and make recommendations to reduce the number and severity of incidents of injury or illness.
