PROJECT BUSINESS CASE

Project Overview

This project would allow the College to outsource the disbursement of financial aid. The College could outsource either a portion or the entire financial aid disbursement process depending on the vendor. This project will require input from Financial Aid, C&C, Finance, IT and possible Student.

Each Term we disburse Financial Aid funds to students by paper check. We do not have the ability to disperse these funds using direct deposit, ATM cards etc. Several vendors have developed these processes including the maintenance of each students banking information

Business Goals
