PROJECT BUSINESS CASE

Project Overview
We are currently using the FMStudio interface to Archibus' preventative maintenance, work management, and space inventory systems. FMStudio does not support Archibus' Project Management and Capital Planning modules. In order to use these modules we must run Archibus' Web Central which supports all modules available. In short, we want to migrate from FMStudio to Web Central.
Business Goals
<ul style="list-style-type: none">• Provide SINGLE, seamless access method to all Archibus modules/systems.
Success Factors
<ul style="list-style-type: none">• Successful implementation of Web Central, Project Management, Capital Planning.• Successful implementation of a Portal Framework for employees to have single-sign-on access.
