PRE/COREQUISITE(S):

COURSE DESCRIPTION:

Health Care of Women is a clinical course designed to provide the student with the knowledge of the reproductive system and health care needs throughout the life cycle. The major focus is directed to the childbearing portion of the life cycle. The student is expected to utilize the nursing process in providing nursing care to the maternity patient, her family, and the fetus/newborn during antepartal, intrapartal, and postpartal periods. Consideration is given to the multiple factors which complicate the normal physiological and psychological process of the childbearing period.
