INTRODUCTION

This Interior Sign Standards Manual has been created to serve as a reference and planning tool for facility personnel to help sign new buildings and renovate existing buildings.

The signs, which appear inside of Broward College buildings, provide the information necessary to guide visitors and employees to their desired destinations as well as provide life safety information. A flexible sign system has been designed by Takeform, an environmental graphic/signage consulting firm located in Medina, NY, to include a family of required Exterior and Interior Signs.
**TYPOGRAPHY**
