

EXECUTIVE SUMMARY

Recommendation that the Broward College District Board of Trustees authorize the submission of the Educational Plant Five Year Survey Report 2025. **Fiscal Impact:** \$0.00

Presenter(s): Deborah Czubkowski, Vice President of Facilities Management

1. Describe the Purpose of this Request/Report: The Educational Plant Survey is a systematic study of present educational and ancillary plants for the determination of future needs.

The construction, remodeling, and renovation of educational facilities is a major undertaking. The Educational Plant Survey aids in formulating plans for housing the activities of community college students and staff for the next five years.

This plan represents a careful study of all available data regarding the status of the Broward College educational and ancillary facilities in relation to the capital outlay full-time equivalency (COFTE) and the projected changes in COFTE student membership.

The recommendations in this Educational Plant Survey furnish the foundation for a five-year plan for the Broward College educational plants that was adopted by the Board of Trustees in accordance with S.S. 1013.31, Florida Statutes. Similarly, the recommendations serve as the basis for the proposed building program with projects listed in the order of priority submitted pursuant to the State Requirement for Educational Facilities S.S. 2.1(5).

This Executive Summary is approved by:

Deborah Czubkowski
Vice President of Facilities Management

RECOMMENDATIONS FOR EDUCATIONAL PLANTS**BROWARD COLLEGE****Survey : 3 Version : 1****Date : 5/28/2025 9:33:21 AM**

The educational plant survey is a systematic study of present educational and ancillary plants and the determination of future needs. The survey is not directly concerned with the instructional program but the relationship of educational plants to the instructional program is such that judgments regarding the instructional program are necessarily a part of an educational plant survey.

The construction, remodeling, and renovation of educational facilities is a major undertaking. The educational plant survey aids in formulating plans for housing the educational activities of students and staff of the community college for the next several years and the survey considers the local comprehensive plan in its forecast strategies. This plan represents a careful study of all available data regarding the status of educational and ancillary facilities in relation to capital outlay full-time equivalency (COFTE) student membership and the projected changes in COFTE student membership. The intent of this educational plant survey is to ensure the thoughtful, orderly development of a program for providing educational and ancillary plants to house the educational and academic support activities of the college.

The recommendations in this educational plant survey furnish the foundation for a five-year plan for educational plants adopted by the Board of Trustees in accordance with §1013.31, Florida Statutes. Similarly, the recommendations serve as the basis for the proposed building program with projects listed in the order of priority submitted pursuant to State Requirements for Educational Facilities §2.1(5).

Educational plant survey cost estimates are determined based on cost factors that are 31 months (January, the midway point of the five-year survey period) from the official beginning of the survey period, which is July 1 of the first full year of the survey. The cost per square foot for new construction, remodeling, and renovation is based on actual statewide average construction cost data with a cost index increase applied to use the mid-point of the survey costs for planning purposes. The cost estimate process applies uniformly to all surveys in all colleges so that consistent planning can be made on a statewide basis.

Cost estimates for educational plant survey recommendations provide a general idea of anticipated costs and should not be interpreted as accurate estimates for particular projects. When educational plant survey recommendations become specific projects, professionals who can estimate the actual project costs based on current construction information must prepare the estimates.

The following table is a summary of square foot rates and cost estimates for the community college educational plant survey recommendations:

Recommendation Category	Cost per Square Foot	Estimated Cost
New Construction	514.00	428,209,288.00
Remodeling	257.00	222,826,196.00
Renovation	171.33	131,928,880.00
Site Recommendations		228,100,000.00
Estimated Total Survey Recommendation Cost		1,011,064,364.00

In addition, the educational plant survey provides six standard recommendations for college-wide application, as needed. The standard survey recommendations address general categories of physical plant needs that are likely to occur over time. No cost estimates are included for the standard survey recommendations.

SITE RECOMMENDATIONS

NUMBER	DESCRIPTION	ESTIMATED COST
30.001	Complete parking lot construction projects to include hard surfacing, positive drainage, curbs, gutters, and illumination.	4,000,000
30.002	Construct campus-wide irrigation, drainage and landscaping systems.	2,000,000
30.003	Construct 3,000 linear feet of campus-wide illuminated covered walkways.	2,000,000
30.004	Develop and construct campus-wide exterior directional signage.	500,000
30.005	Renovate utilities plant to include utilities distributions systems, ice storage, and energy efficient HVAC chiller plant addition.	2,000,000
30.006	Renovate campus-wide water and sewer distribution systems.	3,500,000
30.007	Renovate campus-wide storm water drainage systems for additional capacity	3,500,000
30.008	Renovate campus-wide electrical distribution system, to include energy efficient improvements.	4,000,000
30.009	Renovate campus-wide telecommunications and data systems.	1,500,000
30.010	Renovate campus-wide security and electronic key systems.	1,000,000
30.011	Acquire various land and real estate property near and/or adjacent to the campus upon availability.	5,000,000
30.012	Develop all acquired land and properties for their intended educational purposes.	4,000,000
30.013	Renovate campus-wide life safety systems including exterior and emergency lighting and fire alarm systems.	2,000,000
30.014	Renovate campus-wide traffic control systems.	700,000
30.015	Renovate campus-wide interior maps, directories, and signage systems.	700,000
30.016	Renovate campus-wide student recreational, athletics, and sports areas.	2,000,000
30.017	Renovate campus-wide fuel distribution system.	500,000
30.018	Renovate campus-wide energy efficient systems including building envelopes, windows, and doors.	3,000,000
30.019	Construct campus-wide bicycle and pedestrian access to include pavers, asphalt, concrete plazas, and walkways.	1,000,000
30.020	Renovate campus-wide landscaping areas including all stand-alone trees.	1,000,000
