Associate of Science in Health Information Technology - 2179

Career Pathway: Health Sciences

Location(s): General Education courses are offered at al BC locations. Program specific courses are only offered at the Coral Springs Center.

Program Entrance Requirements: This is a limited access program. Students are required to complete a supplemental application and meet specific criteria. Please click here for more information.

Program Description: The Associate of Science in Health Information Technology program prepares the student for employment as a health information technician (HIT) in a variety of settings and eligibility to write the national certifying examination to become a Registered Health Information Technician (RHIT). The program will also provide the student the eligibility to sit for the AAPC or AHIMA coding credentialing examinations. Responsibilities include coding of diagnoses and procedures; as well as processing, storage and retrieval of health information in ether paper or electronic health records.

Areas covered in the course work include, but not limited to, confidentiality of protected health information, health information and electronic health records systems, legal aspects, statistical reporting, reimbursement methodology, healthcare informatics, performance improvement, and supervision of daily department activities comprise other functions taught in the program. Visit the program's website for additional information.

Additional Program Information: Students must complete all required coursework with a grade of "C" or higher and earn a minimum degree grade point average of 2.0. The program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

BC has articulation agreements with limited educational organizations in the community which allow us to accept the certifications received from that program to be counted (credits awarded) towards your degree at BC. The program currently has articulation agreements with Sheridan and Atlantic Tech Vocational Centers for students graduating from the Medical Transcription and the Medical Coder/Billing Certification Programs.
