

Associate of Science in Aviation Maintenance Management - 2204

Career Pathway: [Industry, Manufacturing, Construction & Transportation \(IMCT\)](#)

Location(s): [General education courses are available at all BC locations. Program specific courses for this program are offered at the Judson A. Samuels South Campus and Aviation Annex located on Pembroke Road.](#)

Program Entrance Requirements: HS Diploma or GED.

Program Description: The Aviation Maintenance Management Associate of Science degree provides students with the academic skills to complement their technical training. The plan of study complies with the Federal Aviation Regulations Part 147 for an approved aviation maintenance technician's school, and, in addition, offers the advantages of college level academic and management courses.

Students seeking an Associate of Science degree in Aviation Maintenance Management must complete the general requirements for both the Airframe Mechanics and Power Plant Mechanics diplomas and/or possess a valid FAA Airframe & Powerplant certificate. Visit program's [website](#) for more information
