

Associate of Science in Dental Hygiene – 2145

Career Pathway: [Health Sciences](#)

Location(s): [General education courses are available at all BC locations. Program specific courses for this program are offered at the A. Hugh Adams Central Campus](#)

Program Entrance Requirements: This is a limited access program. Students are required to complete a supplemental application and meet specific criteria. Please click [here](#) for more information.

Program Description: The Associate in Science Degree Dental Hygiene Program is designed to prepare the student for a career as a Registered Dental Hygienist. The Dental Hygiene program is a unique 1 + 1 program format and is designed to offer students employable skills as both a Certified Dental Assistant and a Registered Dental Hygienist. Students must first complete the 12-month American Dental Association (ADA) accredited Dental Assisting Program. The Dental Assisting program must be listed in the Florida Department of Education database of post-secondary courses at public vocational-technical centers, community colleges, colleges, universities and participating non-public institutions. Graduates from the Dental Assisting Program are qualified to take the Dental Assisting National Board (DANB) Examination. Upon successful completion of this examination, the graduate becomes a Certified Dental Assistant (CDA).

With the completion of the Dental Assisting ATD Program and the appropriate course pre-requisites, the CDA student may apply to the 12-month Dental Hygiene Program. The student has up to three years from the date of Dental Assisting graduation to be admitted to the Dental Hygiene program. Students in the Dental Hygiene Program will be qualified to take the Dental Hygiene National Board and upon graduation the Commission on Dental Competency Assessments (CDCA) state practical licensing examination. Upon passing both examinations, the graduate is licensed as a Registered Dental Hygienist (RDH) in the State of Florida. Broward College awards an Associate in Science Degree in Dental Hygiene to each student who satisfactorily completes the required 12-month dental hygiene course of study.

The Dental Hygiene Program is accredited by the Commission on Dental Accreditation of the American Dental Association (CODA), a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education. Upon successful completion of the National Board Dental Hygiene and state licensure exam, the graduate will be awarded the Registered Dental Hygienist (R.D.H.) credential. Visit the program's [website](#) for additional information.

Additional Program Information: One cohort of 16 students is admitted each August. A final grade of "C" or higher must be achieved in each Dental Hygiene course for continuance in the Program. A student who withdraws or is withdrawn from a Dental course shall refer to College Policy 6Hx2-5.33 and Procedure A6Hx2-5.33 on Re-entry into a Health Sciences Program and/or program guidelines. Reentry to a Program will be based upon space availability. Only one reentry will be allowed. The student who reenters must maintain a "C" or higher in each Dental Hygiene course to continue in a Program. The student receiving a grade of D OR F in any course after reentry will result in permanent dismissal from the BC Dental Programs. After admission, students are required to complete the Basic Life Support (CAE0062) course. The due date for the course is given in the mandatory, general orientation meeting prior to the beginning of the program.
