YOU EARNED IT, NOW GET COLLEGE CREDIT FOR IT!

Receive **FREE** college credits for **TECHNICAL COLLEGE** or **INDUSTRY CERTIFICATIONS**

LIFE/WORK EXPERIENCE The Prior Learning Assessment Program, developed primarily for working adults, to recognize the academic value of what you have learned through experiences outside of the college classroom. Credit for prior learning may result from work experience, employment related training programs and seminars, volunteer work, travel, military service or intensive self-directed study. If students have gained Broward College course equivalent knowledge, competencies, and/or skills as a result of prior learning experiences they may be able to earn academic credit through the Prior Learning Assessment Program. For more information, contact Myrline Sterling at 954-201-5364

INFORMATION TECHNOLOGY

Train for a rewarding career in the high-growth IT industry.

INFORMATION TECHNOLOGY BEST SELLERS

(Cisco, Citrix, EC-Council, IBM, ISC2, ITIL v2, Microsoft, VMware)

Cisco Certified Entry Networking Technician

The CCNA certification (Cisco Certified Network Associate) indicates a foundation in and apprentice knowledge of networking. **Additional Cisco Certifications include:**

Cisco Certified Network Associate | Cisco Certified Design Associate | Cisco Certified Network Professional | Cisco Certified Design Professional | Cisco Certified Security Professional | Cisco Certified Internetwork Professional

Citrix Certified Administrator

The Administrator Series is designed for IT associates and focuses on validating core implementation skills. The Citrix Certified Administrator (CCA) spans Citrix solutions, validating the skills necessary to implement a specific Citrix product.

Additional Citrix Certifications include:

Citrix Certified Advanced Administrator | Citrix Certified Enterprise Engineer | Citrix Certified Integration Architect

COMPTIA A+

In this course, you will acquire the essential skills and information you will need to install, upgrade, repair, configure, troubleshoot, optimize, and perform preventative maintenance of basic personal computer hardware and operating systems.

Additional Comp Tia Certifications include:

CompTia Network+ | CompTia Security+ | CompTia Linux+, CompTia Server+ | CompTia Project+ | CompTia CTT+ | CompTia CDIA+ | CompTIA Cloud Essentials | EC-Council CEH Certification

EC-Council CHFI Certification

The CHFI course will give participants the necessary skills to identify an intruder's footprints and to properly gather the necessary evidence to prosecute. Many of today's top tools of the forensic trade will be taught during this course, including software, hardware and specialized techniques.

Additional EC-Council Certifications include:

EC-Council CEH

IBM Business Analytics

IBM's next-generation business analytic solutions help organizations of all sizes make sense of information in the context of their business. You can uncover insights more quickly and more easily from all types of data—even big data—and on multiple platforms and devices. And, with self-service and built-in expertise and intelligence, you have the freedom and confidence to make smarter decisions that better address your business imperatives. If cost and deployment are a concern, IBM offers software as a service option for business analytics.

Additional IBM Certifications include:

IBM Information Management | IBM Lotus | IBM Rational | IBM Tivoli Software | IBM Websphere | IBM SOA 2008 | IBM SOA Designer | IBM XML | IBM Power Systems | IBM System p AIX and UNIX | IBM System x | IBM System | IBM System Storage and Storage Networking

ISC2 Associate of ISC

If you're a student or career changer considering moving into the field of information security, or just starting out in the Information Security workforce, you are eligible to become an Associate of (ISC)². By aligning yourself with the first name in information security, you're jumping ahead of thousands of others vying for solid positions in the early stages of their careers.

Additional ISC2 Certifications include:

ISC2 SSCP | ISC2 CAP | ISC2 CSSLP | ISC2 CISSP

ITIL v2 Foundation

This hands on, instructor led, ITSM 2011 Foundation certification training program introduces the student to the fundamentals of IT Service Management. ITIL is a set of best practices guidance that has become a worldwide-adopted framework for Information Technology Services Management (ITSM) by many Public & Private Organizations. Since early 1990, ITIL has been evolving from focusing on Functions and Processes under versions 1 and 2 to focusing on the Full Service Lifecycle Management under current version. Delivered over three days the course features lectures, discussion, team exercises and quizzes.

Additional ITIL v2 Foundation Certifications include:

ITIL v2Service Manager | ITIL v2 Practitioner | ITIL v3 Foundation in IT Service Management | ITIL v3 Intermediate | ITIL v3 Expert | ITIL v3 Master Qualification

Microsoft MCSE

Show that you can deploy and manage desktops and devices that provide access from anywhere, while maintaining security and compliance. Also validate your skills in desktop virtualization, remote desktop services, and application virtualization.

VMwareVCP

As the demand for IT professionals with data center virtualization skills increases, it is essential to distinguish yourself in the market with a certification that validates your technical capabilities. Earning your VMware Certified Professional – Data Center/Virtualization certification does just that.

Additional VMware Certifications include:

VMwareVCDX | VMware VCAP | VMware VCA-DT

Certification Programs Fees include:

- Textbooks
- Testing Fees
- Exam Vouchers

The core training for this program is defined by the competencies emphasized in attaining the Microsoft Certified Solutions Associate (MCSA) certification credential in the SQL Database Platform and a (MCSA) in the following web technologies, HTML5 JavaScript and CSS3. The core training for this program is also defined by the Microsoft Certified Solutions Developer (MCSD) App Builder certification.

MTWRF 360 HRS 8a-12p or 6p-10p
18 Weeks

BOOTCAMP SCHEDULE | START DATES

January 15, 2018
February 5, 2018
February 26, 2018
March 19, 2018
April 9, 2018

Bootcamps begin on the days listed above, and run for either five (5), seven (7) or fourteen (14) consecutive days, depending on the certification.

Class times are 9:00a to 5:00p.

LINUX-LPIC1

LPIC-1 is a professional certification program that covers performing maintenance tasks with the command line, installing & configuring a computer running Linux and configuring basic networking. **Additional**

Linux LPIC Certifications include:

Linux LPIC-2 | Linux LPIC-3

ORACLE-OCA

Java SE 8 significantly changes the way Java Programmers write code. Earning a Java SE 8 Certification gives you the tools to make the most of the new features within Java SE 8.

Additional Oracle OCA Certifications include:

*Oracle OCP | Oracle OCM | Oracle OCE | Oracle Developer |
Oracle DBA | Oracle PeopleSoft | Oracle MySQL | Oracle SQL |
Oracle PL/SQL | Oracle WebLogic*

RED HAT LINUX

This intensive course rapidly trains programmers to develop applications and programs on Red Hat Enterprise Linux. Over the span of five days, you'll get hands-on training, concepts, and demonstrations with emphasis on realistic labs and programming exercises. Learn concepts and skills essential to programming and software development for Linux-based applications and products.

WEB DESIGN

(Microsoft, Oracle)

MSCD

Demonstrate your expertise at designing and developing fast and fluid Windows 8 apps. There are two paths to achieving this certification—using HTML5 or C#. MCPD certifications will not be updated for versions later than Visual Studio 2010, and your MCPD certification will decline in value as companies move to newer versions of our products. Take advantage of special upgrades to earn a Microsoft Certified Solutions Developer (MCSD) and protect your investment in your certifications.

Oracle OCE

This certification is geared toward experienced developers of Java technology applications. Certified individuals should have the knowledge and skills to quickly build web applications suited to any Java EE 6 application server using JSP and servlet technologies. They should be familiar with the current methods for analyzing, designing, developing, and deploying web applications with Java technologies and have some experience in constructing and deploying the small-to-medium scale web applications found in intranet and low-volume commercial sites.

Additional Oracle OCA Certifications include:

*Oracle OCP | Oracle OCM | Oracle OCE | Oracle Developer |
Oracle DBA | Oracle PeopleSoft | Oracle MySQL | Oracle SQL |
Oracle PL/SQL | Oracle Weblogic*
