The Florida Board of Nursing is the state agency authorized to determine if the applicant qualifies to take the National Council Licensure Examination (NCLEX-RN) for licensure as a Registered Nurse in Florida. For licensure requirements, refer to sections 464.008 and 464.009, Florida Statutes (F. S.), Rules 64B9-3.002 and 3.008, Florida Administrative Code (F.A.C.).

The Florida Board of Nursing, in accordance with the Rules and Regulations of the Nurse Practice Act, will determine if a nursing program graduate is eligible for licensure.

The student who has met all educational and institutional requirements for an Associate of Science Degree in Nursing from Broward College is eligible to have their name submitted to the Florida Board of Nursing to be considered as a candidate for the National Council Licensure Examination for the Registered Nurse (NCLEX-RN).

Broward College offers a number of different degrees and certificates leading to professional licensure. Some professions require both a degree and the successful completion of additional criteria such as licensure exams, field placements, or clinical hours. If your future plans include achieving licensure or certification, you should know that requirements vary by state. For the Associate Degree in Nursing program, completion of program requirements makes you eligible to apply to take the National Council Licensure Examination (NCLEX) RN in Florida or one of the other 27 nursing compact states if you apply for a multi-state license under the enhanced Nurse Licensure Compact (eNLC). A list of current compact states can be located on the [National Council of State Boards of Nursing website](#). If you are a student who resides outside of Florida or one of the compact states, Broward College cannot confirm whether this degree program meets educational requirements for professional licensure in your state. Since the ASN program at Broward College is nationally accredited, the curriculum should meet the requirements of other states; however, some states have requirements in addition to the program's curriculum. If you wish to take the NCLEX exam in a non-compact state, please contact the board of nursing in the state to determine whether this degree will meet their licensure requirements.
