Subject: Broward College Cares About You!

Broward College cares about you!

Your request for funding through the Seahawk Cares application for emergency assistance has been granted. You have been awarded the maximum amount you are eligible to receive for this semester. You will receive the funding through your selected option on the Bank Mobile site. If you have not made a selection, it will default to a paper check so you will need to make sure your address is current. If you would like to change your Bank Mobile option to direct deposit you will receive future disbursements much faster. You can go to your myBC to make this selection. You are eligible to apply for this funding each semester until the funding source is depleted. This funding is provided to you from the Federal Department of Education through the Higher Education Emergency Relief Fund via Broward College.
