
THE OFFICE OF
**TRANSFER
SERVICES**

ARTICULATION & TRANSFERS

**BROWARDSM
COLLEGE**

Our Purpose

- > Students who seek to continue their studies after graduating from Broward College may transfer to a four-year institution. Broward College has partnered with other institutions in a formal agreement or an "articulation" agreement that outlines the institutions' admission requirements.
- > Students may also transfer to Broward College bachelor programs, too.
- > The Office of Transfer Services supports Broward College graduates transfer smoothly, without disruption in their education and career goals.

Our Focus

- To facilitate workshops, fairs, and other transfer events.
- To promote clarity pertaining to the transfer process.
- To partner with academic advising to assist students.
- To centralize the location for articulation agreements.
- To provide accurate and up-to-date information.

A male scientist with brown hair, wearing a white lab coat and white gloves, is working in a laboratory. He is holding a beaker with orange liquid in his right hand and a pipette in his left hand. A microscope is visible in the foreground, and a red and yellow object is on the table. The background shows laboratory equipment and cabinets.
