

IT Work-Based Learning Virtual Internships Program

Join us to learn more at
our info session!

Broward College's *new* Virtual Internships Program provides Information Technology and Computer Science students with remote, project-based learning experiences through the Virtual Internships platform.

What's in It for You:

- Gain real-world experience in your field.
- Enhance career readiness by developing both technical and soft skills.
- Get support in creating a standout portfolio and expanding your network of industry connections.
- You may be eligible to earn up to three (3) credits through Broward College's Internship EDGE program, depending on your program's requirements.

REGISTER TODAY!
